EXPERIENCE

AYEIM TECHNOLOGY   **HYDERABAD, TELANGANA**
Software engineer   **2024 Fab - Present**
- Built features to improve the user experience in medical practice management.
- Developed tools to streamline patient and practice management processes.
- Enhanced system usability for better functionality and efficiency.

TECHNOBOOT   **BHUBANESWAR, ODISHA**
Associate software engineer   **2023 Sep - 2024 jan**
- Developing web applications using Material-UI (MUI) and React, collaborating with a team to address client requirements on the front-end side.
- Contributed in mobile app development with React Native, ensuring seamless user experiences in mobile applications.
- Coordinated with cross-functional teams to handle client requests and deliver front-end solutions that meet project objectives.

CROP CRUSH   **MUMBAI(REMOTE)**
Front-End developer   **2021 Sep - 2022 Apr**
- Created a responsive website by combining HTML, CSS, and JavaScript, ensuring compatibility across various platforms and devices.
- Employed front-end development techniques to optimize the website's performance and user experience.
- Focused on cross-platform functionality, allowing the website to adapt seamlessly to different screen sizes and orientations.

PROJECTS

MOVIE SEARCHING WEB APP | *ReactJS , React-router* | live | code
- Developed a single-page application using ReactJS and React-Router to provide a user-friendly interface for movie searching
- Fetched API to render the movies dynamically and provided smooth navigation between different movie categories
- Implemented responsive design to ensure optimal viewing on different devices

ECOMMERCE-CART | *React JS , Tailwind* | live | code
- Retrieved items via API integration and implemented a shopping cart section showcasing added products, their quantities, and the cumulative cost.
- Enabled users to easily manipulate the cart, with options to increase, decrease, or remove items, ensuring a smooth shopping experience.
- Provided real-time updates for the cart's total cost and item count to keep users informed of their selections.

PORTFOLIO WEBSITE | *ReactJS , React-router,Tailwind* | live | code
- Created a personal portfolio website using HTML, CSS, and JavaScript to showcase skills and projects
- Designed a responsive layout that adapts to different screen sizes for optimal user experience
- Utilized lottie animations to provide an engaging visual experience for the user
